

NITIN SHARMA

Computer Science & Engineering Student | AI & ML Specialist

Mathura, UP, India • +9187557 54739 • nitinsharmabro8126@gmail.com

PROFESSIONAL SUMMARY

Driven Computer Science and Engineering undergraduate specializing in Artificial Intelligence and Machine Learning at Sanskriti University. Proficient in Python, TensorFlow, web development, and native Android application architecture. Demonstrated expertise in building scalable machine learning routines, creating intuitive user interfaces, and technical project management. Eager to contribute strong analytical and computational problem-solving skills to modern software development teams.

EDUCATION

Sanskriti University — Mathura, UP, India

Bachelor of Technology (B.Tech) in Computer Science & Engineering (Specialization: AIML)

TECHNICAL SKILLS

- **Languages & Core:** Python, HTML5, CSS3, JavaScript, SQL
- **AI & Data Science:** TensorFlow, NumPy, Pandas, Scikit-Learn, Data Structures & Algorithms
- **Tools & Environments:** Git, GitHub, MySQL, Visual Studio Code, Linux Terminal

TECHNICAL PROJECTS

Machine Learning Predictive Modeling System | Python, TensorFlow, Pandas, NumPy

- Designed and implemented an end-to-end machine learning pipeline to preprocess large-scale datasets and extract key features.
- Optimized model evaluation routines to achieve high predictive performance and precision metrics across benchmark datasets.

PORTFOLIO | HTML, CSS, JAVASCRIPT

LEADERSHIP & ACADEMIC EXPERIENCE

Technical Coordinator & Project Lead

- Coordinated technical layouts, digital assets, and schedule workflows for institutional and community functions.
- Prepared technical presentations and academic seminars on modern computing topics, including the societal impact of social media platforms.
